

REQUEST FOR FINANCIAL SUPPORT OF COMMUNITY PROJECTS

The Palos Verdes Homes Association has limited funds available to support projects to improve and/or beautify the public areas of Palos Verdes Estates and Miraleste for the benefit of its residents and to enhance their property values. In order for the Board of Directors to evaluate the Project we are asking the sponsoring group to submit the following information as well as any other data they feel is pertinent to the project. The Homes Association typically applies the following criteria in reaching its decision to extend aid:

- Residents show their support of the project by their contributions equaling approximately one third of the project.
- The sponsoring group has obtained at least three competitive bids.
- The project has support of the City Council of either PVE or RPV and they will support the project with a contribution.

Application Date: _____
